RULE NO. 1

DEFINITIONS
(Continued)

Cogeneration: The sequential production of electricity (or mechanical shaft power) and some useful form of thermal energy from a single input energy source.

Commercial Customer: A customer who is engaged primarily in the sale of goods or services including institutions and local, state and federal government agencies for uses other than those involving manufacturing or electric power generation.

Commission: Refers to the Public Utilities Commission of Nevada (PUCN).

Company: Southwest Gas Corporation.

Company's Operating Convenience: The term refers to the utilization, under certain circumstances of facilities or practices not ordinarily employed which contribute to the overall efficiency of the Company's operations; it does not refer to customer convenience nor to the use of facilities or adoption of practices required to comply with applicable laws, ordinances, rules or regulations, or similar requirements of public authorities.

Cubic Foot:

1. In cases where gas is supplied to customers at the standard delivery pressure, as specified in Rule No. 2, the volume of gas which, at the temperature and pressure existing in the meter, occupies one cubic foot.
2. In cases where gas is supplied to customers through positive displacement meters at other than standard delivery pressure, the volume of gas which, at 60°F and an absolute pressure of 14.73 pounds per square inch, occupies one cubic foot.

Curtailment Priority: As defined in the Nevada Administrative Code (NAC).

Customer: The person or entity who receives or applies to receive service from the Company, as evidenced by the signature on the application or contract for that service, or, in the absence of a signed instrument, by the receipt and payment of bills regularly issued in the name of the service.

RULE NO. 1

DEFINITIONS
(Continued)

Electronic Billing:	A billing option customers may elect whereby the customer receives, views, and pays his/her gas bill electronically.
Electronic Billing Service Provider:	An agent of the Company that provides electronic bill presentment payment service for the Company and serves as a common link between the Company and the customer.
Electronic Transfer:	Paperless exchange of data and/or funds.
Especially Dangerous to Health:	A condition or event likely to cause serious impairment to the health of a person who appears to be unable, without assistance, to manage his/her own resources, carry out the activities of daily living or protect himself/herself from neglect or a hazardous situation.
Excess Flow Valve:	A device designed to restrict the flow of gas in a customer's natural gas service line by automatically closing in the event of a service line break, thus mitigating the consequences of service line failures.
FERC:	Federal Energy Regulatory Commission.
Gas Day:	A period of twenty-four (24) consecutive hours, except for those days that are adjusted for Daylight Savings Time, commencing and ending at 7:00 A.M. Pacific Clock Time (PCT). Clock Time indicates that the Company will adjust its Gas Day to reflect changes for Daylight Savings Time.
Guarantor:	A customer of the Company currently receiving service under this Nevada Gas Tariff who assumes liability for the payment of the bill of another customer in an amount not to exceed the appropriate amount of the deposit for the account of the customer.

RULE NO. 1

DEFINITIONS
(Continued)

Industrial Customer: A customer who is engaged primarily in a process which creates or changes raw or unfinished materials into another form or product.

Inter-Divisional Capacity Transfer: A mechanism by which the unused off-peak interstate capacity of one of the Company's divisions is utilized by another of the Company's divisions to procure and transport otherwise inaccessible economically priced gas. The division owning the off-peak capacity receives benefit in the form of credits to its Deferred Energy Account. The division utilizing the off-peak capacity receives benefit through reduction in its purchased gas costs.

Interruptible Gas Service: Gas service subject to interruption or curtailment.

Intra-day Nomination: A Nomination submitted after the nominating deadline for Daily and Standing Nominations specified in Schedule No. ST-1/NT-1 which has an effective time no earlier than the beginning of the next Gas Day, and which has an ending time no later than the end of that Gas Day.

Law: A rule, or rules, established and enforced by federal, state, county or municipal authorities.

Main Extension: The length of main and its related facilities required to transport gas from the existing distribution facilities of the Company to the point of connecting with the service piping.

Margin: The currently effective tariff sales rate, less the average cost of purchased gas and the surcharge(s) to amortize the balancing account(s), if any, included in the sales rate, multiplied by the units of gas used, plus the basic service charge, demand charge and transportation service charge, calculated on an annual basis.

RULE NO. 1

DEFINITIONS
(Continued)

Master Meter Customer: A customer served by a master meter system.

Master Meter System: A pipeline system for distributing gas within, but not limited to, a definable area, such as a mobile home park, housing project, or apartment complex, where the operator purchases metered gas from an outside source for resale through an exterior or underground pipeline to more than one building. The gas distribution pipeline system supplies the ultimate consumer who either purchases the gas directly through a meter or by other means, such as by rents.

Maximum Daily Quantity (MDQ): The maximum daily quantity of gas the Company agrees to receive or deliver, in a twenty-four (24) hour period, at each receipt or Delivery point or in the aggregate as specified in the service agreement.

Mcf: 1,000 cubic feet.

Meter: A measuring device and its related facilities, if necessary, such as regulators and valves.

Mobile Home: A portable unit designed and built to be towed on its own chassis and connected to utilities. It is without a permanent foundation and is designed for year-round living.

Multi-Family Apartment: Apartment complexes where more than one permanent residential dwelling receives the benefits of natural gas service through individual meters.

Multi-Family Complex: A location at which more than one dwelling unit receives the benefits of a natural gas service through a single meter including, without limitation, apartment complexes and mobile home parks.
